## NEW SWISS ARCHITECTURE (HARDBACK)

Thames Hudson Ltd, United Kingdom, 2015. Hardback. Condition: New. Language: English . Brand New Book. Established on the global stage by the international success and influence of architects such as Peter Zumthor and Herzog de Meuron, today's generation of architects in Switzerland draws on the country's distinctive landscape of alpine peaks, crystalline lakes and efficient cities, and fuses traditional Swiss materials with new high-tech tools and innovative construction methods. *New Swiss Architecture* documents fifty of the most important buildings of the last decade through architectural photographs that highlight their exceptional detail, attention to context and material experimentation. Because of their isolated locations, many of these buildings are little known, despite having been designed by leading architects, including Christ Gantenbein, Gion/Guyer, Valerio Olgiati, Charles Pictet, Richter Dahl Rocha and Diener Diener. The book is presented in two sections: the first comprises a photographic portfolio of projects organized into themes: Alpine, Infrastructural, Recreational, Rural, Suburban, Urban. The second section describes each of the featured buildings through drawings, plans and concise texts.
